Bathroom Zones

Selectric IP44 rated shaver lights should **not** be installed in bathroom zones 1 or 2.

Disposal Information

Should you want to dispose of this item please do not put it with the household waste. Used electrical and electronic equipment and batteries must be made available for separate collection. Electrical products may contain toxic materials such as lead or cadmium. Separate collection allows materials to be recovered and recycled. Private households may return their used electrical and electronic equipment to designated collection facilities free of charge. Facilities are usually available at the municipal waste site, your electrical retailer, or your local authority may provide separate collection from the household. By disposing of this product correctly you will be providing positive help to the environment.

SAFETY FIRST
 • BEFORE STARTING ANY ELECTRICAL WORK ALWAYS SWITCH OFF AT THE MAINS
 • IF IN DOUBT CONSULT A QUALIFIED ELECTRICIAN

Safety Instructions

To ensure correct function and safety, please read and follow all instructions carefully before using the product.

1. Turn off power supply before installation or before doing any maintenance work.
2. Do not install any luminaire near a heat source.
3. Do not exceed the nominal supply voltage or amperage ratings.
4. All wiring and installation of the light fitting must adhere to local and national wiring regulations.
5. Take care not to pull any electrical wires during unpacking as this may damage the connection.
6. Lay out all the components on a smooth surface and make sure there are no components missing before assembling.
7. To avoid injury or damage to the fitting, please ensure that power leads and screws are secure before connecting the power.
8. Please keep instructions for future reference.

Waterproof Installation Tips (If applicable)

Waterproof gasket for screwing

Fasten the waterproof gasket into the mounting screws to prevent water from leaking inside.

Waterproof grommet for cable entry

If there is gap between cable and waterproof grommet, please fill it with water-resistant silicone caulk to prevent water from leaking inside.

Waterproof cable Gland for mains entry

Ensure that the waterproof cable gland is tightened to prevent water from leaking inside.

Water-resistant silicone caulk in knock out hole

Caunks in knock out holes are tight enough to avoid dust, insects, and especially water from leaking inside.

Installation Procedure

WARNING

1. Switch off before installation.
2. Switch on only after complete installation and examination of the circuit.
3. Professional electrician for installation and maintenance only.

Turn Off
