- Humidity: 10% to 90%
- Lifetime: 30,000hrs

WARNING

- Not suitable to be used externally or in bathrooms - suitable for indoor installations only
- Before starting any electrical work always switch off at the mains
- If in any doubt, consult a qualified electrician

Installation Instructions

- Fixing holes must be clear of obstructions e.g. cables etc.
- Do not fix lamp in an area of high temperature or humidity
- Select the appropriate brackets & screws for the mounting surface
- Use the fittings as a template to determine the desired spacing between the brackets
- Fix brackets to a stable surface using the screws provided
- Clip the fitting(s) to the brackets and link if required.
- If a mains plug is going to be used to power the LED fitting, please consult a qualified electrician to remove one side of the power lead and wire to a plug
- Please note this lamp is not designed to be used with a dimmer
- We would not recommend exceeding 100W in a linked formation

Disposal Information

Should you want to dispose of this item please do not put it with the household waste. Used electrical and electronic equipment and batteries must be made available for separate collection. Electrical products may contain toxic materials such as lead or cadmium. Separate collection allows materials to be recovered and recycled. Private households may return their used electrical and electronic equipment to designated collection facilities free of charge. Facilities are usually available at the municipal waste site, your electrical retailer, or your local authority may provide separate collection from the household. By disposing of this product correctly you will be providing positive help to the environment.

SAFETY FIRST

- BEFORE STARTING ANY ELECTRICAL WORK ALWAYS SWITCH OFF AT THE MAINS
- IF IN DOUBT CONSULT A QUALIFIED ELECTRICIAN
